Resources for Students with Disabilities

Provided by FPU

Microsoft Office Accessibility:
It provides students with accessibility checkers, dictation: speech-to-text, i.e., types from the sound of your voice, and immersive reader: text-to-speech, i.e. reads text aloud.

Read and Write:
Assistive technology which allows students to hear web pages and documents read aloud; understand unfamiliar words with text and picture dictionaries; word prediction; grammar, spelling, and confusable words checker; highlighting and screen masking; research with study skills tools; assists English language learners and other learning challenges. Available for download: https:// my.fpu.edu

E-Text:
An electronic copy of a textbook purchased by the student. It can be used with the **Read and Write** toolbar.

Bookshare:
It is an ebook library that makes reading easier. Members can access a huge collection of eBooks and read their way with the most customizable eBooks for people with reading barriers.

Glean:
Glean, classroom and lecture recording software, makes information in class more manageable and lets you return to content effectively at a pace that suits you.

RedCat FM Sound System:
A portable microphone and amplification system is available for faculty use. It benefits hard-of-hearing students. It reduces stress on faculty voice in large classrooms. It can be checked out at the Library.

Closed-Circuit Television CCTV:
Available in the FPU library. Allows zoom-in text for more readable font sizes.

Available to try before purchasing (DAE Office):

Livescribe Pen:
Will help individuals record while writing notes. Allows users to re-hear their notes and lectures.
https://www.amazon.com/Livescribe/pages/2529805011

Revised January 2024

Student Apps and Other Tech Help (for download or purchase)

Magnifier on iPhone and iPad:
Allows access to a magnifier for better visual accessibility.
https://www.imore.com/how-use-magnifier-iphone-and-ipad

Be My Eyes:
Helps individuals who are blind or visually impaired. There are volunteers who provide assistance over the screen of the individual's device. (iOS & Android) Be My Eyes - See the world together

Google Tools:
Text to Speech-
Reads text aloud and helps individuals to hear the pronunciation of a word or text.
Translate-
Helps translate text, pictures, and languages into the best fit for the individual. (Apple, Android)
Quizlet:
Create flashcards and study outlines. https://quizlet.com

ModMath:
With a touch on the screen, it will help write and solve math problems. Allows to print, email, or save. (Apple iPad) About — ModMath

Smiling Mind (Meditation app):
Meditation & mindfulness to help individuals feel strong, connected, and inspired through life's ups.

TapTapSee:
Helps individuals who are blind or visually impaired with assistance to hear an identification of any object they encounter. (For iOS & Android) https://taptapseeapp.com/

Hear Boost: Recording Ear Aid:
A powerful aid app for your hearing. Supercharge your ear and get enhanced boosted hearing with this microphone amplifier. Hear Boost raises the volume of your microphone up to 200x. (For iOS & Android)

My Study Life – School Planner:
Helps organize classes, assignments, and exams. Works without Wi-Fi and can be synced to an individual's data. MyStudyLife | Free Student Planner & Study App (For iOS & Android)

Rogervoice:
Uses voice recognition to convert voice to text, so those hard of hearing can "hear" phone calls by reading. (For iOS & Android)

Desmos Calculators:
https://www.desmos.com/accessibility#accessibility-intro

Revised January 2024

Reclaimai:

Helps with time management and productivity. Automatically schedules time for your tasks, before they're due, around your existing availability. Create recurring healthy habits and sync all your different calendars and availability. (AI App for Google) https://reclaim.ai/

Bear:

Bear helps in writing down the negative thoughts that have been revolving in your mind. This app helps in creating a visual so that you can jot down your thoughts and organize your day efficiently.

Todoist:

When adding a task and reminder, simply hashtag the category and todoist will organize it for you. You can prioritize tasks and receive reminders based on what's most important and what you've already completed. Set daily or weekly productivity goals (depending on your version) and track your progress.

Pomofocus:

Allows you to set the duration of your study session and breaks for your focus. You can add new tasks along the way. This app promotes increased productivity in your study sessions.

Products for Purchase

Scanner Pro:
Turns an individual's device into a portable scanner. (Apple $3.99)

MindNode:
Helps with visual representation, brainstorming, and organization in order to help map out ideas. (Android & iOS monthly $2.99)

Kurzweil for reading, writing, and literacy skills
